Dear Parents/Guardian,

Rollerblading is a lifestyle sport which, once it is learnt, stays with the person throughout his life. Learning how to skate is a fun process which greatly enhances parent-child bonding. Life is a journey where learning never stops, regardless of age. Spills and tumbles are all part of the course and we hope that through this activity, the parent and child would be able to learn from each other and know that the family is always there to support and encourage us when we go through life.

With protective gear and the correct technique, you'll be skating safely and smoothly in no time. Safety is paramount and a full set of protective gear would be provided during the course of the workshop.
